# Pacific Sea Battle Being Extended YANKS FIGHT IN TUNISIA

Giant Japanese Armada Is Reported Steaming Southward To Battle Area

NEW CLIMAX NEAR IN PACIFIC CLASH

Biggest Land, Sea And Air Japanese beachhead at Battle Of Pacific May Be In Progress

By JOSEPH A. BORS (I. N. S. Staff Correspondent)

WASHINGTON, Nov. 16. munique announced today. --With a giant Japanese armada reported steaming southward, the fierce struggle for Guadalcanal today thundered on toward a new climax, as American and enemy forces were locked in what may be the greatest land, sea and air battle of the Pacific conflict.

Scope of the new battle for control of the southern Solomons was indicated by the navy's statemen on the fifth day of fighting that "numerous enemy surface forces" were in action and reports from Australia that a gigantic Japanese convoy was knifing into the area.

Surface Forces Active

FAITH

SHORTAGE OF HOUSES IN NEW CASTLE? Yes, and there will be. (Experience is the best teacher). Good business people don't get caught the second time. During the depression when you could not rent a property for hardly enough to pay the taxes, owners of property who could do so kept their properties, others lost them for taxes. Now, when everything is booming, greatest wages ever, being paid, that same property owner is not allowed to regain any of his loss.

WHY, would people build properties to rent at this time, or fix others over, when mechanics, labor and building material are the highest ever known, and then be expected to rent them at a de-WHEN, there are cities where taxes are such, and investments the country over where he can place his money, that he will be

partially assured he will have some income when the next depres-SOLUTION: Divide the taxes equally among those who receive

#### ARGENTINA WARMING UP TO US

ARGENTINA'S official approval of United States operations in A French Africa, while a bit belated, possesses interest because of the hitherto pro-Axis attitude of its government.

The message to our State Department, signed by Foreign Minister Enrique Ruiz-Guinazu, stated that the Argentine peo- gether with some evening and weekple "watch with solidarity and interest the efforts made by the great and friendly nation in safeguarding the security of the teachers take over this added serv-Americas."

This is all very nice, but our "great and friendly nation" prove less efficient and all school has been safeguarding the security of the Americas for a long Besides, there is a shortage of time, while the Argentine government has been weakening it by maintaining relations with the Axis powers.

Apparently it took United States occupation of West and train the children in high school North Africa to convince President Castillo and his foreign min- and the upper grades to help with ister that they may have been taking the wrong track. They ground, in the gymnasium and now shift uncomfortably in the direction of "solidarity," a term other places at school, after the which they have notably ignored for many months.

There is little doubt that the Argentine people as a whole for children at school and home are anti-Axis. But it will take more than a few soft words to after school hours. change the Castillo government's spots overnight.

"Solidarity" means little in Argentina so long as German in some instances teaching part of agents continue to make Buenos Aires their headquarters and for more specialized service at other the government insists on unimpaired relations with America's hours, or some of these might par-

#### AN ODD WHEAT FIELD

As an experiment there was sown in late July a quick-maturing wheat on a large area known as the Athi Plains in Kenya, the British Crown Colony in Africa. A recent survey of the prospective yield is in- on how far the child has developed spiring optimistic reports in London newspapers. It is is estimated that the yield will be four bags to the acre, making 400,000 bags in all, or more

Some of the experts term such a yield phenomenal in view of the more than mere pocket money. My fact that the tract is at the center of a region full of fauna and insects special bulletin on allowances may which like the taste of wheat. The plains stretch for miles east of Nairobi. oe had without cost to you by writing me at 235 East 45th street, New Rainfall averages 22 inches a year. The area is the home of vast herds | York City, enclosing a self-addressed of zebra, wild-beasts, antelopes and also lions which prey upon these envelope with a three-cent stamp

animals. The plains are treeless. It was necessary to put up wire netting around the tract to keep out the beasts. The implements for preparing the ground were imported from the United States. The natives furnished the necessary labor and also serve in patrolling the reserve to keep the fence in regair.

#### COMMON PATTERN

While the North African offensive is ostensibly aimed at Hitler, there is a connection with the Pacific conflict, as will become apparent in the course of time. That connection is in the obtaining of a shorter route to India and then on to China where Japan in the final showdown will be defeated in the infantry phase of the offensive against her. The route to India is ten thousands miles shorter from the East it

Coast of the United States through the Mediterranean that around the Cape of Good Horn. This route now is in the process of being made safe against Axis depredations. An unassailable sea lane will result which ed for the furnaces. will put men and weapons in the Far East more rapidly than ever before and bring overpowering forces to bear against Japan.

When this route is opened to supply an army in India, Burma and the Burma Road will be retaken from the Japs. Next will come the supplying of Chinese armies with modern weapons and their reinforcement with American and British troops. When that is accomplished, Japan will be forced out of China with nowhere to go except into the jaws of beautiful, precious, badly needed American naval and air forces coming at her from the other side.

Such a development will greatly assist Russia by keeping Japan far too busy to attack Siberia. The Russian forces there will be used in

the process of finishing off Hitler or to join the final assult upon Japan. The inter-related struggles in the Pacific and against Hitler are moving in a common direction.

## A START BY THE OWI

The Office of War Information under Elmer Davis is putting into effect some decision which serve to emphasize the shortage of sense that

has existed in Washington. Davis is making some progress in his campaign to provide the American people with as much correct, up-to-the-minute information on the war as \$ consistent with the obvious necessity of keeping military

The OWI is also making progress in other fields. It has just made important rulings curtailing "non-essential information activity" by government agencies—a long- needed move. The OWI has curtailed or eliminated 523 government publications and has ordered discontinuance of There are signs in the yard which the practice of mailing press releases from Washington to newspapers throughout the country. For ten years this has been an insult to newspaper editors, few of whom even read the output of these Washington The frosts, and the winds which

With a few exceptions news material will be released to local offices through field offices. Field offices will issue only material adapted to local interests. Distribution of full texts of statistical or technical reports is discontinued. Summaries of texts and speeches will be issued when the information merits it.

That last sentence is the crux of the matter. If it is found that the information seldom if ever merits it, good.

This seems to be a step in the right direction. It means that government news will be issued not on a helter-skelter basis but under editorial control. This, of course, is not as ideal as the pre-New Deal method of permitting the newspapers to gather their own news. But it will mean a huge saving in paper alone over recent practices and it should pave the way for the release of a large number of government employes unnecessarily on the public pay roll.

If the Office of War Information continues on its present course, it can do much to run many of the unneeded New Deal press agents out of Washington.

"Compulsory manpower mobilization" for war industry has been sidetracked because a feeling is growing in Washington that election returns meant the 40-hour week should be abolished.

### The Parent Problem By Garry C. Myers, Ph. D.

CHILDREN OF WORKING

MOTHERS PROBLEM The other day I spoke before groups of teachers, parents and civic leaders in an industrial city of nearly 70,000 people. Over onethird of the mothers of that city work. This is not a guess but a fact ascertained by a house to house canvass. In some other cities, or sections of cities, the percentage of mothers working outside their homes

is much larger. Just consider what

all this means to children of these

Many wives who have no children some indeed who have growing children of their own, are volunteering to care for neighbor children of working mothers. Some others are attracting these children to their homes after school and on Saturday. Some high school girls are volunteering their services, too. Also some churches and civic clubs are setting ip volunteer centers to protect these neighbor children. Besides. there are a few nursery schools. Yet all these efforts are but a drop in

Job For Schools Not just the babies and tots, but

also children of school age, even in the high school, need protection. The public schools may have to take over this service and be open from about 7 a. m. to 7 p. m. to-We hardly can hope to have our

As they give more hours they will

A Way Out As a compromise, the school might supervise this larger program and regular school day. Let the school also provide training courses for adult volunteers to learn to care

Some retired teachers might be glad to volunteer in this service, ticipate directly in this after and before school program. There may come a time when many adults will be drafted to give this service.

Solving Parent Problems Q. At what age should an allow-

A. No one can say. It depends in taking responsibility. A reasonable goal for the average child is probably at the age of eight or nine for an allowance to include

## Samuel J. Rashid

217 East Washington Street

Cordially invites you to a showing of gorgeous art linens and lace and fine hand embroidered banquet sets especially culled to help you celebrate more effectively your Thanksgiving and Holidays at home.

This collection embraces the usual and the rare linens. Some are hand loomed and most all are hand embroidered, from China, Portugal, Switzerland and Ireland. There is the crash linens, with open cut work, and lace, Maderia, Mosaic, Venice and Tuscony lace. Richelieu type cloths, beautiful bridge sets and handkerchiefs in Appenzel, Chinese Cross-Stitch and Needlepoint.

## Awaiting Your Inspection Is:

A collection of hand made arts from U. S. A., China, India, Syria, Iran, Russia, Mexico and Brazil.

### FROM CANADA:

Beautiful hand made hooked rugs, with alluring colors and designs.

## Superb Hand-Woven Oriental Rugs

Baku...Caucausia...Iran...India...are just a few of the many names flooding the news these history making days. They've all played such a great part in the story of that great art—the weaving of Oriental Rugs. A point to remember, particularly at present, is that a fine Oriental Rug is hard to surpass in sheer beauty—in individuality—in durableness—in sound floor covering value. Right now you can choose from a tremendous selection in sizes, colors and types. And right now you'll find them sale priced. Why not choose an Oriental for that dining room-before Thanksgiving?

The Long Lived-Long Loved Gift Is An ORIENTAL RUG

## **Bomb Found In** Los Angeles Is Just "An Old One"

(International News Service)

LOS ANGELES, Nov. 16.-A 50 kilogram aerial bomb bearing German markings, discovered in the back yard of a Los Angeles home, was described today as "an old one" by Police Capt. Vernon E. Rasmus-

Capt. Rasmussen said he doubted if the bomb, found yesterday in a clump of dense shrubbery by W. H. Brown, senior patrol inspector of the immigration border patrol, had been dropped from an airplane. Rasmussen pointed out

"It was on its side and I think someone just got scared to keep it

and tossed it in there. Until the statement of Capt. Rasmussen, discovery of the bomb had created widespread excitement on the part of residents who recalled the apparent attempt of a plane, presumably a seaplane from a Japanese submarine, to set fire to an

Oregon forest last Sept. 9. Fragments of that bomb, bearing Japanese markings, were found, but if the attempt was to set a disastrous forest fire it was unsuccess-

## Barbara Bennett **Reported Missing**

No Trace Found Of Former Wife Of Morton Downey Radio Singer

(International News Service) BEVERLY HILLS, Cal., Nov. 16 .-Authorities said early today they had failed to find "a single trace" of Barbara Bennett, former actress, reported missing since last Friday and described by her husband as de-

Miss Bennett, sister of Actresses Joan and Constance Bennett, was reported missing by her present husband, Cowboy Actor Addison

'Jack" Randall. He said she had been despondent since a Bridgeport, Conn., court refused last month to give her custody of the five children born to her and her former husband, Morton Downey, stage and radio singer.

Downey said in New York City

his mother had received several telephone calls early Saturday from an anonyous caller who reported Miss Bennett was contemplating suicide. Randall said that at the time of Miss Bennett's disappearance she was wearing a black street dress and a silver fox fur cape. He believed she had but a few cents in her purse. The last he saw of his wife, he said, was when she prepared to attend a party Friday evening. She failed to arrive at the party.

## FROM ME TO YOU

By MESEEALL

Here it is the 16th of November . . . that means that you have received your gas rationing card . . . or at least you have applied for it and when you get that 5 dollar Federal Stamp or when you sell your extra tires to the Government you will get the Rationing Book. And it was all rather easy too wasn't it. The school teachers did a splendid job . . . very efficient and without fuss. They work for nothing doing these rationing jobs . . . Are you in a position to say that you have volunteered any of your time to any war cause?

Tuesday the United War Fund drive will start . . . that means that you and I must really dig down and make sure that the full quota is raised and done quickly. 90,000 dollars is the full amount. Let's get going and show the outside world that New Castle can really do a good war job of helping our neighbers. Remember last spring we raised in three days a nice little sum of money . . . every cent was paid back. This money that you will spend to help the United War Fund will be returned in a different manner . . but it will be returned with 100 per cent interest . . . you will feel down deep in your heart that when the call for help was sounded in a despondent home, or when a boy or girl need association as the "Y" that you were there to help them. Do your part won't you.

People have talked but nothing has been done . . . concerning an honor roll for the men who have gone to serve our armed forces. It would be a great task to complete but some organization that would like to do the city a service should take hold of the idea and work it around a little. Maybe more than one "club" would like to work on it. It shouldn't be a means to gather glory for the "clubs" but to honor those who are making it possible for us to enjoy our

There are still some people who evidently think . . . what the hell, I will drive my car over 35 if I want. What difference does it make if it is worn out. Well that type of person has his own life to live and his own faults to make right. He will holler if he can't get some place in an emergency . . . but let 'em holler, he's writing his own funeral ticket. \* \* \*

Right now it will pay you to read this page of ads.
